Your Card - Important Customer Information

1. Is a credit card suitable for my needs?	Put Simply
Credit cards can be very useful, allowing you to make payments securely, earn loyalty points and providing a helpful short term credit line. However, a credit card can be expensive if used to borrow over a long period or used regularly to withdraw cash.	Credit cards can be very useful, but are an expensive way to borrow large amounts over a long period or to withdraw cash regularly.
2. How much will I have to repay?	Put Simply
<p>We'll send you a statement each month showing details of what you owe. The amount you have to pay will depend on how much you spend using your card, how much you repay each month, the interest rate that we charge and whether you have any instalment or PayDown plans. You must make at least the contractual minimum payment by the due date as shown on your statement.</p> <p>You do not have to make payments on any Buy Now Pay Later balance you may have until the end of the promotional period.</p> <p>You can pay off as much as you like each month, between the contractual minimum payment and everything you owe, but the more you pay back, the less you'll pay in interest and the sooner you'll clear your balance.</p> <p>If we notice that you have not been making sufficient payments to help you pay your balance down, we may recommend you make extra payments or move part or all of your balance to a PayDown Plan.</p> <p>You can set up a direct debit to pay everything you owe, the minimum payment, a fixed amount each month or the sum of your minimum payment, total monthly instalment payment and any recommended extra payment.</p> <p>For further details, see the section of the Agreement called How much do you have to pay each month?</p>	<p>You must pay at least your contractual minimum payment each month on time but if you only pay the minimum it will take you longer and cost you more to repay what you owe.</p> <p>If we notice your payments aren't reducing your balance sufficiently, we may recommend that you make extra payments or move part or all of the balance to a PayDown Plan. Making extra payments will mean that you will pay less interest and pay your balance down quicker.</p>
3. What will happen to me if I do not keep up with repayments?	Put Simply
<p>So long as you make at least your contractual minimum payment on time, you won't be charged any late fees.</p> <p>If you do miss a payment, you'll be charged £12 as well as interest and this will mean that your debt will grow and we'll have to report the missed payment to the credit reference agencies.</p> <p>This might make it harder and more expensive for you to get credit in the future. Remember, you can set up a direct debit which will help you avoid having to pay a late fee.</p> <p>Failing to keep up with your repayments will also result in any promotional offers and instalment plans being withdrawn and you will pay the standard purchase rate on these amounts. Buy Now Pay Later and instalment plan balances will be moved to your standard purchase balance.</p> <p>If we register a default or you become insolvent, this will remain on your credit file for 6 years. It could also result in legal action being taken against you, by us or a third party to whom we may have sold the debt. This could result in a court order being obtained (which could possibly be enforced by securing the debt against your home) and you incurring legal costs. In exceptional cases, an order for the sale of your home could be made.</p> <p>You should contact us if you are having difficulties making payments.</p>	<p>You will be charged a £12 fee if you do not make at least your contractual minimum payment on time and any promotional offers and instalment plans will be withdrawn and you will pay the standard purchase rate on these amounts.</p> <p>Missed payments are reported to credit reference agencies. This means your credit rating could go down making it harder to get credit in the future.</p>

A recurring transaction is a regular payment (other than a direct debit or standing order) collected from your credit card account by a supplier of goods or services (such as a magazine subscription) in line with your instructions. The Direct Debit Guarantee does not cover recurring transactions.

If you have authorised a recurring transaction, the person being paid may continue to take payments from your credit card account until you tell them or us to cancel it. You may withdraw your consent to a recurring transaction at any time. The latest point at which you can cancel your authorisation with us is the end of the working day (a working day is defined as Monday – Friday, excluding bank holidays) before the recurring transaction is due to be paid.
